SEMA ■ COLLISION REPAIR & REFINISH NEW PRODUCTS

Sherwin-Williams Automotive Finishes

Dynamic Clearcoat
800-798-5872

www.sherwin-automotive.com/home
PN: CC200

Dynamic Clearcoat CC200 is said to create a new category among premium automotive clearcoats, offering superior appearance in half the time of most glamour clearcoats. Dynamic Clearcoat offers the ultimate in gloss for high-end refinishing while maintaining productivity. Dynamic Clearcoat is designed for any painter, application and repair environment.

SoftSeal Safety Respirators

**SoftSeal
Respirators**

800-513-9337
www.softsealmask.com
PN: 16-90003

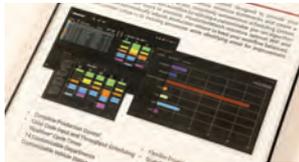

SoftSeal is said to be superior by design. Featuring SoftSeal technology, N95 respirators and filter masks form a complete seal around the face by using a medical-grade silicone seal. Most N95 respirators and filter masks on the market today fall short of providing optimum protection and may defeat the purpose of wearing a mask.

Summit CRS ProductionWatch

208-947-1738
www.summitcrs.net
PN: 1.0.0.0

ProductionWatch is a revolutionary production control system designed to provide staffs with a road map to maximize production workflow, minimize bottlenecks and create a predictable delivery outcome. Monitors optimal WIP and inventory levels and automatically adjusts production release to keep workflow balanced.

Summit CRS

Booth Pro
208-947-1738
www.summitcrs.com
PN: 1.0.0.0

BoothPro is an easy-to-use scheduling tool designed to improve paint booth utilization by maximizing the number of jobs in each booth cycle. Schedule paint jobs daily to maximize the paint booth throughput. Set daily, weekly and monthly goals to set expectations and track progress.

Summit CRS

Mopho Pro
208-947-1738
www.summitcrs.net
PN: 1.0.1

Mopho Pro is an iOS and Android app designed to upload images and video to a network file server via Wi-Fi. Barcode scanning and custom categories ensure organization and integration with the Summit collision repair system. All imaging meets and/or exceeds insurance image quality requirements.

Tamco Paint 30-Minute High-Speed Impact Clear

800-678-1533
www.tamcopaint.com
PN: HC-9500

This is a 30-min. clear. Users can literally cut and buff this clear in 35 min., which is revolutionary. The speed of production will increase greatly with this clear. It does not lose its gloss and keeps a super wet-look finish. Most people achieve an off-the-gun glass finish with no need to cut and buff.

Tiger Drylac U.S.A. Inc.

3D Metallics
886-898-4437
www.tiger-coatings.us
PN: Series 68

3D Metallics is a patented, novel, AAMA 2604-compliant, super-durable powdercoating technology developed to bridge the gap between current effect powdercoatings and liquid paints, providing a surface finish solution that meets the requirements for sparkling effect coating with liquid paint appearance. The effect is noticeable from all view angles.

VeriFacts Automotive VQ Medallion

949-272-3838
www.verifactsauto.com

This VQ Medallion is one of fewer than 200 in the world and usually resides on the wall of one of the best collision repair shops. It was not purchased but was earned by the hard work and verified quality output of that world's best facility. To find out more or to find the nearest verified quality and VQ Medallion facilities, visit verifactsauto.com.

Viktory The K Brand

Vik-6254
714-654-0480
www.viktoryk.com
PN: VIK-6254

This is a rubbing compound for professional usage. Deep gloss polish. It removes fine scratches and swirl marks while restoring a glittering wet-look shine. Contains no silicone and no wax. Part B and C available.

Wizards Products Big Throw Mini Combo Kit

763-497-5155
wizardsproducts.com
PN: DAPM12KIT

The 12mm dual-action orbital accepts 3- and 4-in. pads for fast and easy scratch removal without swirls. Performs in limited access and tighter style line areas. Finishes perfectly with included SSR Kit #99123. Six multiple-size pads, Mystic Cut compound, Mystic Nano Wax and a cleaning brush.
